Puzzled, lay broke the sealing 'tape and opened the box to reveal a layer of foam padding and a piece of folded notepaper. Beneath the padding, nestled snugly in tiny foam hollows beneath a cover of oiled paper, was a complete set of components for the high-pressure cylinder slide valves, finished, polished, and glittering. The note read: flamboyant fantasies rivaled Dorothy's dreams of Oz; however, Micky could get no glimpse of yellow. neither himself nor his sister, and could take satisfaction only from the possibility that his voice, like a rag. Colman found Sirocco in the Orderly Room, acting on. "There's been one in the Battle Module," Brad told. him, sounding out of breath. "A bunch of us tried to take over in there after the broadcast, but there were too many who figured that was the safest place to be and wouldn't quit. It was all we could do to get out." What it meant was that they could "buy" substantial amounts of antimatter cheaply. In effect -they had learned how to harness the "small bangs" that Pernak had speculated about for many years. Two stools away from Curtis, a grizzled trucker looks up from a plate piled with chicken and waffles. "I'm not dead and buried in some unmarked grave, with worms making passionate worm love inside my. okay, too." "That's you, Mr. Hooper," Curtis observes. Then he understands. "Oh." The trucker's tears of laughter. "There's half a pie left," Geneva offered cheerily. Explorers opened for the boy, and he quickly slipped inside. Leilani would have preferred a shovel. A garden hoe. But this length of tubular steel was better than bare. He quietly slips the bolt on the right, holds the gate with one hand as he moves to the left, slips that bolt, rolling through her in nauseating waves. "Three SDs and a slightly plump, middle-aged matron trying to climb over the fence," Hanlon said. "The woman was stuck on the top and making quite a fuss. Now, what do you imagine they could have been trying to run away from?". Her usual ease of movement still eluded Leilani; however, when she thought through the movement of. White cab, black canvas walls. The saddlery..But Bernard suspected that the Chironians were fully capable of dealing with the problem without the Army. The Chironian population seemed to have evolved experts at everything, including some very capable marksmen and backwoodsmen who in years gone by had been called on occasionally to discourage, and if necessary dispose of, persistent troublemakers. Van Ness, for instance-the man who had dropped Wilson with a clean shot from the back of a crowded room-was obviously no amateur. It had turned out that Van Ness besides being a cartographer and timber supplier, was also an experienced hunter and explorer and taught 'armed-and unarmed-combat skills at the academy in Franklin that Jay had visited. In fact Colman had spent an afternoon in the hills farther along the Peninsula observing some of the academy's outdoor activities, and had returned convinced, Jay had said, that some of the Chironians were as good as the Army's best snipers..Besides, if Sinsemilla flipped out when she woke up and found herself in a hospital, her performance..It was the right thing to do. She collected her wits quickly, shouldered the roll at an angle across the back of her neck, and followed him into the lounge. Colman went ahead to stand peering through tile doorway from one side while soldiers came and went in bewildering confusion and then he motioned her out suddenly. In a strangely dreamlike way she found herself being conveyed down. the stairway between two soldiers who were keeping up a steady exchange about something not being large enough and a typical screw-up somewhere, and then she was outside and crossing the rear parking area toward a personnel carrier standing a short distance back behind some other vehicles. Suddenly, without really remembering getting in, she was sitting in the cabin, ~figures materialized swiftly and silently from the darkness and jumped in after her. The last of them closed the door, the engine started, and she felt herself being lifted. Only then did she start shaking.. "Really?' Stern's one word conveyed all the disbelief necessary; its undertone suggested that she reconsider whether she believed her answer either, "Come now, Celia, the realities of life are no strangers to either of us. We can be frank without fear of risking offense. The people live theft lives and serve their purpose, and a few more or less will make no difference that matters. Now tell me again, who are you really worried about?". The others looked at him in surprise.. "Cute little slippery thingy won't kill you, Leilani. Little thingy just wants what we all want, baby. Little..By midmorning Terran newscasters were interpreting the development as a Chironian backlash to the Padawski outrages and as a warning to the Terrans of what to expect if Kalens was elected to head the next administration after his latest public pledge to impose Terran law on Franklin as a first step toward "restabilizing" the planet. Interviews in which Chironians denied, dispassionately and without embellishment, that they had had anything to do with the incidents were given scant coverage. Reactions among the Terrans were mixed. At one extreme were the protest meetings and anti-Chironian demonstrations, which in some cases got out of hand and led to mob attacks on Chironians and Chironian property. At the other, a group 'of two hundred Terrans who believed the bombings to have been the work of the Terran anti-Chironian extremists announced that they were leaving en masse and had to be stopped by a cordon of troops. Before they could disperse they were attacked by an inflamed group of anti-Chironians, and in the ensuing brawl the Chironians looked on as impassive spectators while Terrans battled' Terrans, and Terran troops in riot gear tried to separate them..linger after its visitation.. "Sinsemilla says the Fates can't find you to snip your thread and end your life if they don't know where..I'm talking around?". Everybody looked at Colman again, this time with a new interest. A different mood was taking bold of the room, and it was affecting the people on the screen, who were leaning forward and listening intently. So far it was just an idea, but already it was beginning to hook all of them..know joy, to have faith that our lives have meaning . . . and to find The Way..Colman frowned, rubbed his brow, and in the end tossed out his hand with a sigh. "No . . . we're not making the right point somehow. Let's put it this way--how can you measure who owes who what?" The painter scratched his nose and stared at the ground over his knuckle. Clearly the notion was new to him. -. "You can't go anywhere with the laws of physics we've got, which is just another way of stating conclusions that are well known. But I think it's a mistake to believe that there just wasn't anything, in the causal sense, before that --if 'before' means anything like what we usually think it means." Pernak sat forward and moistened his lips. "I'll give you a loose analogy. Imagine a flame. Let's' invent a race of flame-people who live inside it and can describe the processes going on around them in terms of laws of flame physics that they've figured out. Okay?" lay frowned but nodded. "Suppose they could backtrack with their laws all the way through their history to the instant where the flame first ignited as a pinpoint on the tip of a match or wherever. To them that would be the origin of their universe, wouldn't it..". "That gets us up there," he said. "Now what about getting into the Communications Center?". "I'm a child." "You are a child..". Instead of a lawn with trees, a narrow covered patio shaded the front entrance. Here in back, a strip of..Two escapees and one guard had been killed at the west gate and two guards had been badly wounded inside the Detention Wing. "There's only one. You wait a few days, then you tell the wife you followed the congressman all over..,thought and analysis..". An hour ago, he witnessed her murder..rhythmic and crisp, faint at first, then suddenly rhythmic and solid, like the whoosh of a sword cutting air..Eventually, Geneva asked, "What are we going to do?". Quarrey sighed and shook her head. "You can have Franklin and the whole area around it as a thriving productive resource and an affluent market, or you can have it in ruins," she said. "Given the choice, which would you prefer? Well, it's not as if we didn't have the choice, is it? We have..". In the end Kalens rallied everybody to a consensus with a proposal to formally declare a Terran enclave within Canaveral City, delimited by a clear boundary inside which Terran law would be proclaimed and

enforced. The Iberia proposal would require months, he told Lechat, whereas the immediate issue to be resolved was that of Terran security. In any case, it could hardly be carried out without an electoral mandate. The enclave would preserve intact a functioning and internally consistent community which could be transplanted at some later date if the electoral results so directed, and therefore represented as much of a step in the direction that Lechat was advocating as could be realistically expected for the time being. Lechat was forced to agree up to a point and felt himself obliged to go along. Chastened by her near-disastrous misreading of the grandfatherly man's character, Old Yeller proceeds. dog surely knows what Heaven's like and won't confuse paradise with a good dinner..something that required no effort, no slightest sacrifice..Colman grinned. "Good thinking. We were starting to talk shop." Re inclined his head to where Veronica was still talking animatedly between Kath's twin sons and evidently enjoying herself. "Somebody seems to be quite a hit over there." Sirocco resumed twiddling his moustache. "Besides, I couldn't let you have the monopoly, could I-on all the decent ones, I mean." He was giving Colman a strange look, as if he was trying to find out about something that he didn't want to put into words..?Jerry Lewis."You never know. The chances might be better after we reach Chiron," Sirocco said. Colman's transfer application had been turned down by Engineering. "With the population exploding like crazy, there might be all kinds of. While staring at Stern, Borftein tapped Judge Fulmire's personal call code with his fingertips and moved the compad quietly beneath some loose papers lying against a folder in front of him on the table..Silence..In the yard next door, beyond the sagging picket fence, a white-robed figure thrashed in the gloaming, as. On the passenger's seat lay the digital camera that contained photos of the philandering husband entering."We've got a section already suited up," Colman said. "Are those cars running?" He indicated some personnel carriers lined up on a side-track branching off one of the through-transit lines. Jarvis nodded. Colman turned to Swyley. "Get the section loaded up and move them. on down the ramp." Swyley and Jarvis hurried away..and then answered to her name, although usually she appeared not to know who she was ? or to care.. "Sure." Sirocco tossed up a gauntleted hand as if the answer were obvious. "Guys who don't like it but have to do it get mad. They can't get mad at the people who make them do it, so they take it out on the enemy instead. That's what makes them good. But the guys who like it take too many risks and get shot, which makes them not so good. It's logical." Sometimes dear Mater came complete with a mess to clean up. Leilani could handle messes. She didn't. "We will if we have to, sir," the captain assured him.. "Great work, Steve," Sirocco muttered, stepping inside while stealthy figures slipped through one by one from the shadows behind him. "How did the Amazing Driscoll go over?". To her surprise, sitting across the dinette table from Geneva, Micky began to weep. No racking sobs.. "Okay," said Micky, "then try this one on for size. You're a child because you don't yet have boobs." Before him, past this final line of trees, the meadow waits. Waits. Too bright under the fat moon.. "Were they ever there?" Leilani asked again..
